

DENTIST-LED. STRUCTURED CARE.

TURUNCU DENTAL CLINIC

Antalya city center /TURKEY
15 Minutes from Antalya Airport

THE FOUNDING PARTNERS

SINCE 2017

DR. TURAN SEKMEN, PHD

- Graduated from Hacettepe University Faculty of Dentistry in 2009.
- PhD degree in Prosthodontics at Akdeniz University Faculty of Dentistry.
- 17 years of clinical experience, focusing extensively on full mouth rehabilitation and complex restorative cases.

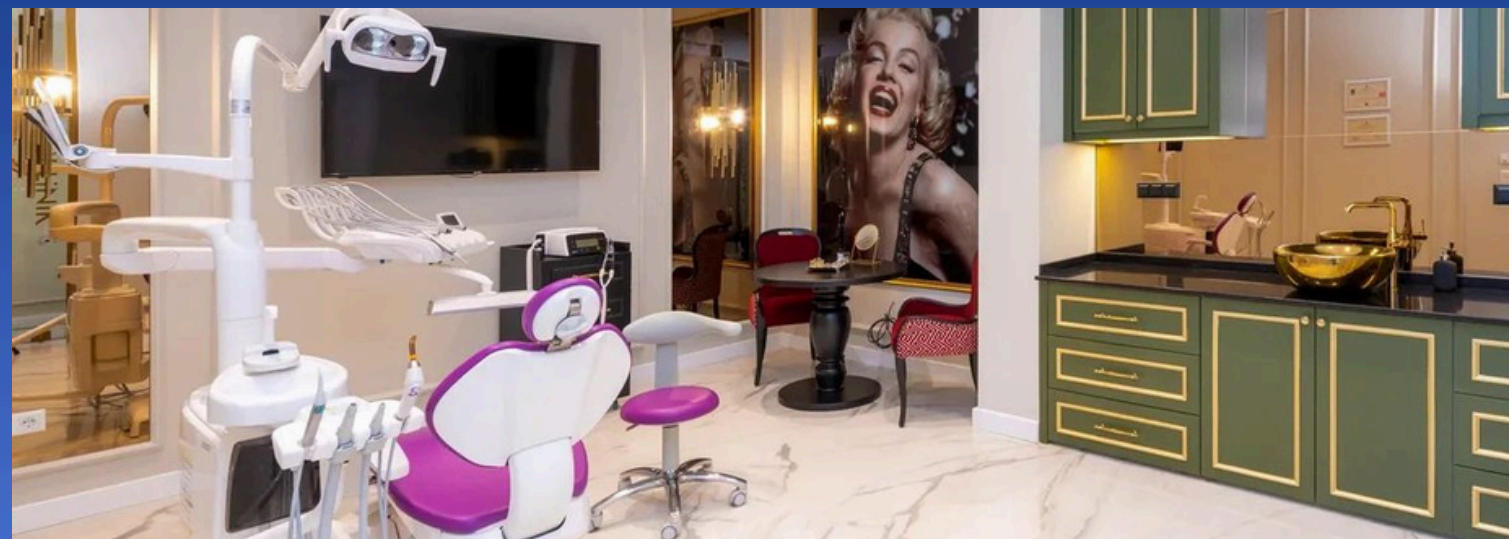

Clinical expertise in implantology, advanced prosthetic rehabilitation, and smile design forms the foundation of his structured, function-driven, and long-term clinical approach.

DR. MUSTAFA YILDIRIM, PHD

- Graduated from the SDU University Faculty of Dentistry in 2011.
- Completed an academic year at the University of Oulu, Faculty of Dentistry, Finland.
- PhD degree in Orthodontics at Akdeniz University Faculty of Dentistry.

Clinical expertise in general dentistry, adult and paediatric orthodontics, clear aligner therapy, and fixed orthodontic appliances (braces). Dr. Yildirim combines orthodontic precision with a function-oriented philosophy to deliver balanced, stable, and long-term results

OUR TREATMENTS

Smile Design & Cosmetic Dentistry

High-quality zirconia crowns and veneers
Aesthetic restorations for both beauty and function.

Dental Implants

Single implants
All-on-4
All-on-6

Orthodontics

Invisalign treatments and braces for adults and children, including fixed orthodontic appliances

General & Preventive Dentistry

Fillings, root canal treatments, extractions, teeth whitening etc.

Periodontal Treatment

Diagnosis and treatment of gum disease, deep cleaning procedures and long-term periodontal health

We never recommend treatment that is not clinically necessary

OUR APPROACH

CORRECT BITE POSITIONING

NATURAL SPEECH (PHONETICS)

BALANCED OCCLUSION

LONG-TERM DURABILITY

FACIAL HARMONY

Turuncu Dental Clinic operates with a structured, multidisciplinary team of experienced dental professionals. Alongside our founding dentists, we work with more than 10 dentists specialised in their respective clinical fields. With our dental assistants, coordinators, and support staff, we are a team of over 35 professionals dedicated to delivering structured and responsible care.

We never recommend treatment that is not clinically necessary

WHY TURUNCU DENTAL?

Owner-led. Patient-focused.

Every case is overseen within a structured clinical system led by our founding dentists. We prioritise professional accountability over volume-based dentistry.

Clear written treatment planning

You receive a detailed, documented treatment plan outlining diagnosis, options, materials, timelines and costs — before any commitment is made.

Transparent Pricing

All fees are clearly explained in advance. No unexpected additions. Subject to further clinical examinations which may require additional work but this will be optional and communicated in house.

Modern, digitally supported dentistry

We utilise advanced digital systems for diagnostics, planning and restorative precision, ensuring predictable and consistent outcomes.

WHY TURUNCU DENTAL?

Sedation and Local / general anaesthesia options

For complex procedures or patients with dental anxiety, treatment can be performed under sedation or general anaesthesia within appropriate clinical protocols.

Strict hygiene & sterilisation protocols

All procedures are performed within controlled, modern treatment environments following structured sterilisation standards.

English-speaking patient coordination

Patients are supported by dedicated coordinators who communicate clearly, guide appointment scheduling and provide written documentation when required.

Ongoing communication

Our responsibility does not end when you leave Antalya. We remain available for guidance and structured follow-up support.

TRUSTED BY OUR PATIENTS

Truly amazing!!!

If you're looking for a dental clinic that prioritizes cleanliness and professionalism, look no further than Turuncu dental clinic, the state-of-the-art equipment and spotless environment immediately put me at ease. The staff were knowledgeable and courteous, and the communication was excellent. I particularly appreciated the clear explanations of treatment options and the gentle approach of the dental team. I felt confident and well-cared for throughout my visit. Dr Turan and his staff were exceptionally brilliant. I left Turuncu dental clinic feeling like a completely new man. Dr Turan and his staff CHANGED MY LIFE!!! Choosing Turuncu dental clinic was the best decision I've ever made for my self-confidence. I used to hide my smile, but now I can't stop showing it off! I have the most amazing teeth and it's all down to the team's expertise and attention to detail which is evident in the perfect fit and natural appearance of my veneers. They've truly transformed my life. Thank you Dr Turan and his amazing team for giving me the smile I've always dreamed of, but also with a sense of genuine care and trust. This isn't just a dental clinic it's a place where you're treated like family. I wholeheartedly recommend them to anyone looking for an outstanding dental experience. If you have any dental anxiety, or just want the best care possible, this is the place to go. They've absolutely transformed my view of dental visits and my life....Three years on, my veneers still look as good as new. They've held up beautifully, and I haven't experienced any issues whatsoever. I receive compliments on my smile regularly, and it's truly boosted my confidence. 5 stars doesn't seem enough.... Thank you so much to everyone at Turuncu dental clinic.

Turuncu the best place in turkey

Had the best experience here , made to feel relaxed and aware of whole procedure lot of work done, never felt any pain and the results are amazing
2 years on and still never had a problem, would definitely recommend having your teeth done here so professional and state of the art equipment

Top clinic..the best one

If you reading my review you are lucky. As you found the best place to have you smile back. The best experience. The best professional doctors, the top service, you are going to be treated like family member. I totally didn't expect such result. My smile so beautiful and natural. I had 28 crowns done. No pain at all. The doctor Ziya is so professional. So...guys...if you are looking for the dental treatment, just go for this clinic. You will not be disappointed...Many thanks to the clinic all staff and all the best

I could not give less than 5 Stars

I could not give less than 5 Stars. From my initial contact with Dr Turan Sekmen, where he explained exactly what my treatment would include and more importantly what it could include should other problems be subsequently found, so there were no hidden surprises. I was treated, as was my wife, who has had a lifelong fear of dentists, by Dr Ziya Osmanli. He was professional and courteous, with an after care which really was exceptional and much appreciated. Big thank you to the reception staff and in particular Hülya who make sure that everything is explained and well communicated. Would highly recommend.

100% recommend this dentist, fantastic bespoke service, I personally know and have had my own teeth done here and not one person unhappy , they go the extra mile to ensure you are safe comfortable reassured through your stay. State of the art equipment and so so clean and sterile. So glad we chose Turuncu.

★★★★★ First-Class Service from Start to...

★★★★★ First-Class Service from Start to Finish

I cannot recommend TURUNCU Dental Clinic highly enough. From my very first consultation in the UK, the service was outstanding. The team took the time to explain everything thoroughly, discuss all available treatment options, and answer my questions with openness, kindness, and real attention to detail. I never felt rushed or pressured.

Once I decided to go ahead with treatment, I was assigned a patient coordinator, Omar, who was absolutely excellent. He explained each stage clearly and ensured I felt informed and reassured throughout the process. My treatment plan was detailed and easy to understand, which gave me great confidence moving forward.

When I travelled to Turkey, I was met at the airport and transported directly to the clinic, where the staff were ready to begin my first stage of treatment. My treatment was completed in two stages and included dental implants. I am very nervous about needles, but the dentist and nurses were incredibly patient, calm, and caring. They took their time with me, ensuring I was comfortable at every stage.

I have to say, the treatment itself was first class. I experienced very minimal discomfort — far less than I had anticipated, and certainly less than previous experiences in the UK.

Three months later, I returned for my follow-up treatment over five days. Again, the service from the nurses, dental team, and reception staff was exceptional. They paid close attention to detail and were fully focused on ensuring I was happy with the final result. They were particularly diligent with my crowns and implants — if I wasn't completely satisfied, adjustments were made immediately and returned to the technicians until both their standards and my standards were met.

The results are fantastic, and I am extremely happy. I genuinely have no complaints at all.

I would rate TURUNCU Dental Clinic a five-star service without hesitation. In fact, two of my relatives and three of my friends have seen the quality of the work and are now planning to use their services as well.

Absolutely first class. ★★★★★

I got the chance to visit Turuncu Dental Clinics in Antalya and to honest I got the best dental service that a person could get in Turkey or at least in Antalya. Clinic was professionally equipped, staff were very cooperative and repectable, thanks to Dr. Turan who was the doctor to diagnose my case carefully. I really recommend Turuncu Dental Clinic without hesitation.
